PROFESSIONAL SUMMARY

- Over 7 months of IT experience, including 5 months specializing in React JS.
- Extensive experience in developing web pages using HTML5, CSS3, JavaScript, React JS, Bootstrap, Tailwind, and ES6.
- Proficient in developing single-page applications (SPAs).
- Skilled in customizing CSS frameworks like Bootstrap and Tailwind.
- Experienced in React JS framework, including components, forms, events, router, and React Hooks.
- Knowledgeable in creating custom reusable React component libraries.
- Skilled in front-end development with back-end system integration.
- Proficient in version control tools such as Git for source code management.
- Effective team player with strong individual contribution capabilities.
- Well-organized, goal-oriented, with excellent communication and interpersonal skills.

TECHNICAL SKILLS

Frontend Technologies: HTML, CSS, JavaScript, HTML5, ES6, React JS,

Frontend Libraries: Bootstrap, Tailwind, Reactstrap

Languages: JavaScript, Python, Java

Databases: MySQL, PostgreSQL

Tools & Others: VS Code, Git, Postman

EDUCATION

B. Tech (Computer Science and Cyber Security)

JNTU Affiliated Engineering College

PROFESSIONAL EXPERIENCE

Elbert Technology Private Limited, Hyderabad, India

Frontend Developer | April 2025 – Present

- Developed responsive and interactive user interfaces using React JS for web applications.
- Collaborated with backend teams to ensure seamless API integration and real-time data flow.

- Maintained high coding standards, optimized performance, and delivered user-centric features to enhance application functionality and user experience.

SuperCoder, South Korea (Remote Internship)

Bubble Developer | December 2024 – February 2025

- Developed no-code web applications using the Bubble platform, focusing on user-friendly interfaces and workflows.
- Collaborated remotely with a global team to deliver scalable solutions for client projects.
- Ensured cross-browser compatibility and optimized user experience across devices.

PROJECTS

CRM (Customer Relationship Management) | Elbert Technology

- Developed user interface using React JS to enhance user experience and streamline business operations.
- Utilized React JS components (forms, events, keys, router) for seamless user interaction.
- Maintained coding standards for reusable, maintainable code.
- Integrated APIs with backend team for smooth data flow.
- Used Git for version control and GitHub for collaborative development.

Environment: React JS, JavaScript, Bootstrap, Reactstrap, CSS, HTML5, VS Code, Git

Fairneft | Elbert Technology

- Developed fintech loan app UI using React JS, improving user experience.
- Integrated APIs with backend team for seamless data flow.
- Built reusable React JS components for scalable code.
- Used Tailwind for responsive, consistent design.
- Managed code with Git for collaboration and version control.

Environment: React JS, JavaScript, Tailwind, CSS, HTML5, VS Code, Git

Bubble Web Application | SuperCoder (Remote)

- Designed and implemented responsive web applications using Bubble's visual development platform.
- Created dynamic workflows and database structures to support application functionality.
- Integrated third-party APIs to enhance features and data connectivity.
- Used Bubble's version control for project iterations and team collaboration.

Environment: Bubble, JavaScript, CSS, HTML5, API Integration
